

Sis Karen Goh Is Not Ashamed of the Gospel
For The SALVATION of her Mother
The late Sis Lim Chwee Yeo

Thank you Lord Jesus for your love for us!

Thank God for his great love through Church of Sengkang that my mother, Lim Chwee Yeo's life was filled with abundance and under shelter. Through Church of Sengkang, I have seen His mighty power in changing the lives of my family members and how the stronghold of satan had been broken down. I thank Lord Jesus for listening to my prayer and for my nephew (our family's first grandson Addison who was saved and baptized). I thank God for the holy spirit and the precious blood of Jesus Christ that covers all things and brought my mother, Lim Chwee Yeo to rest in the arms of God entering into the eternal Kingdom of God. All is perfect now! Amen!

On 2nd August 2009 at 12.30 pm, I received a call from my elder sister to visit my mother who is in critical condition at NUH. For that moment, the first thing on my mind is to seek God. I told the Lord that I have known Him for the last 24 years and it is my hope that my family members particularly my parents who are very stubborn can know Jesus.

Upon arrival at NUH, we were not able to see my mother who is under observation. But, I saw my family members discussing my mother's funeral. Miraculously, at about 5 pm, the doctor told me that my mother's condition had been stabilized and we can visit her. When Tiong Chai and I saw Mom, she immediately told us that she felt she was dying. I then told her she was all right as our Church of Sengkang's Pastor & brethren, Chionh Ma Ma, Tiong Chai and I have asked the Lord to let her soul be awakened.

We all thank God for his mighty power as the Lord begin his work in my family. The next day, Mom was so happy to see a 93 year old elderly woman, Chionh Ma Ma who came to the hospital to visit her, who can sing and speak the bible truth to her. Mom told the family that she was very blessed to have an elderly person to visit her. She returned home after a few days but 3 days later, she was not well again. My family members then requested for Chionh Ma Ma to pray for her. She was happy. Thereabout on the 3rd week, she was not well again, as we prayed at home asking the Lord to let digest the food she ate, to grant her strength, she held on to her grandson, Addison, Pastor David and Chionh Mama hands. Soon after, some family members became unhappy and started blaming me for bringing Chionh ma ma and for allowing the Pastor to lead Mom to Christ. My father, in particular, was angry as Mom was an idol worshipper for the last 50 years and now that she is sick, afraid of death, called on Jesus to help her. On the 4th week, mom was admitted to the hospital again; dad was very angry and spoke to all not to allow mom to be baptized and if she passed away must follow the Chinese funeral rites. I thank God on September 15 morning, a psychologist came to speak to my mom and told her that her sickness is terminal and asked if she had any inner desires to be fulfilled. Mom told the psychologist that she wanted to be baptized and wanted a Christian funeral service.

My prayer was heard by the Lord as on 17 Sep, Pastor David went to NUH to conduct the baptismal service @ 9.30 am. At about 1.30 pm, Mom went home to the Lord....
As for the funeral service, it was done in the way of the Lord.
