

“Leadership Transition Is In Place & In Process”

I thank sister sandy for inviting me to this camp. God has spoken to me through this camp. To forgive people from my heart is very difficult. God say I need to forgive because He has first forgiven me. To pray for the people that hurt you is very difficult. Healing take place where we start to pray for the people who hurt us. God has created human being to walk forward instead of backward. This is because God want us to leave the past behind and walk forward to focus on Him. To focus on Him not our hurts or our problems. Despite how difficult our life is, God has promised us He will hold my hand and bring me through.

Since last year, God has called me to the evangelism ministry but till now I have not respond to Him. God spoke to me through Pastor Robin's sermon, People need the Lord, why am I waiting. Time is not on our side. The lost souls need us to bring the gospel to them. Why am I waiting. The people are crying out for God's love. Despite of my disobedient, God still love me so much.

I am very encouraged the passion that Church of Sengkang has for God. They served God wholeheartly. I am very ministered by the worship service. I pray that they will continue to use their voice to heal the broken hearted. God will continue to use Church of Sengkang to minister and reach to people in Punggol and Sengkang and beyond Singapore. This is my first time to attend the camp that the whole committee members are very young. God is good all the time. Give all glory to God.
